About me

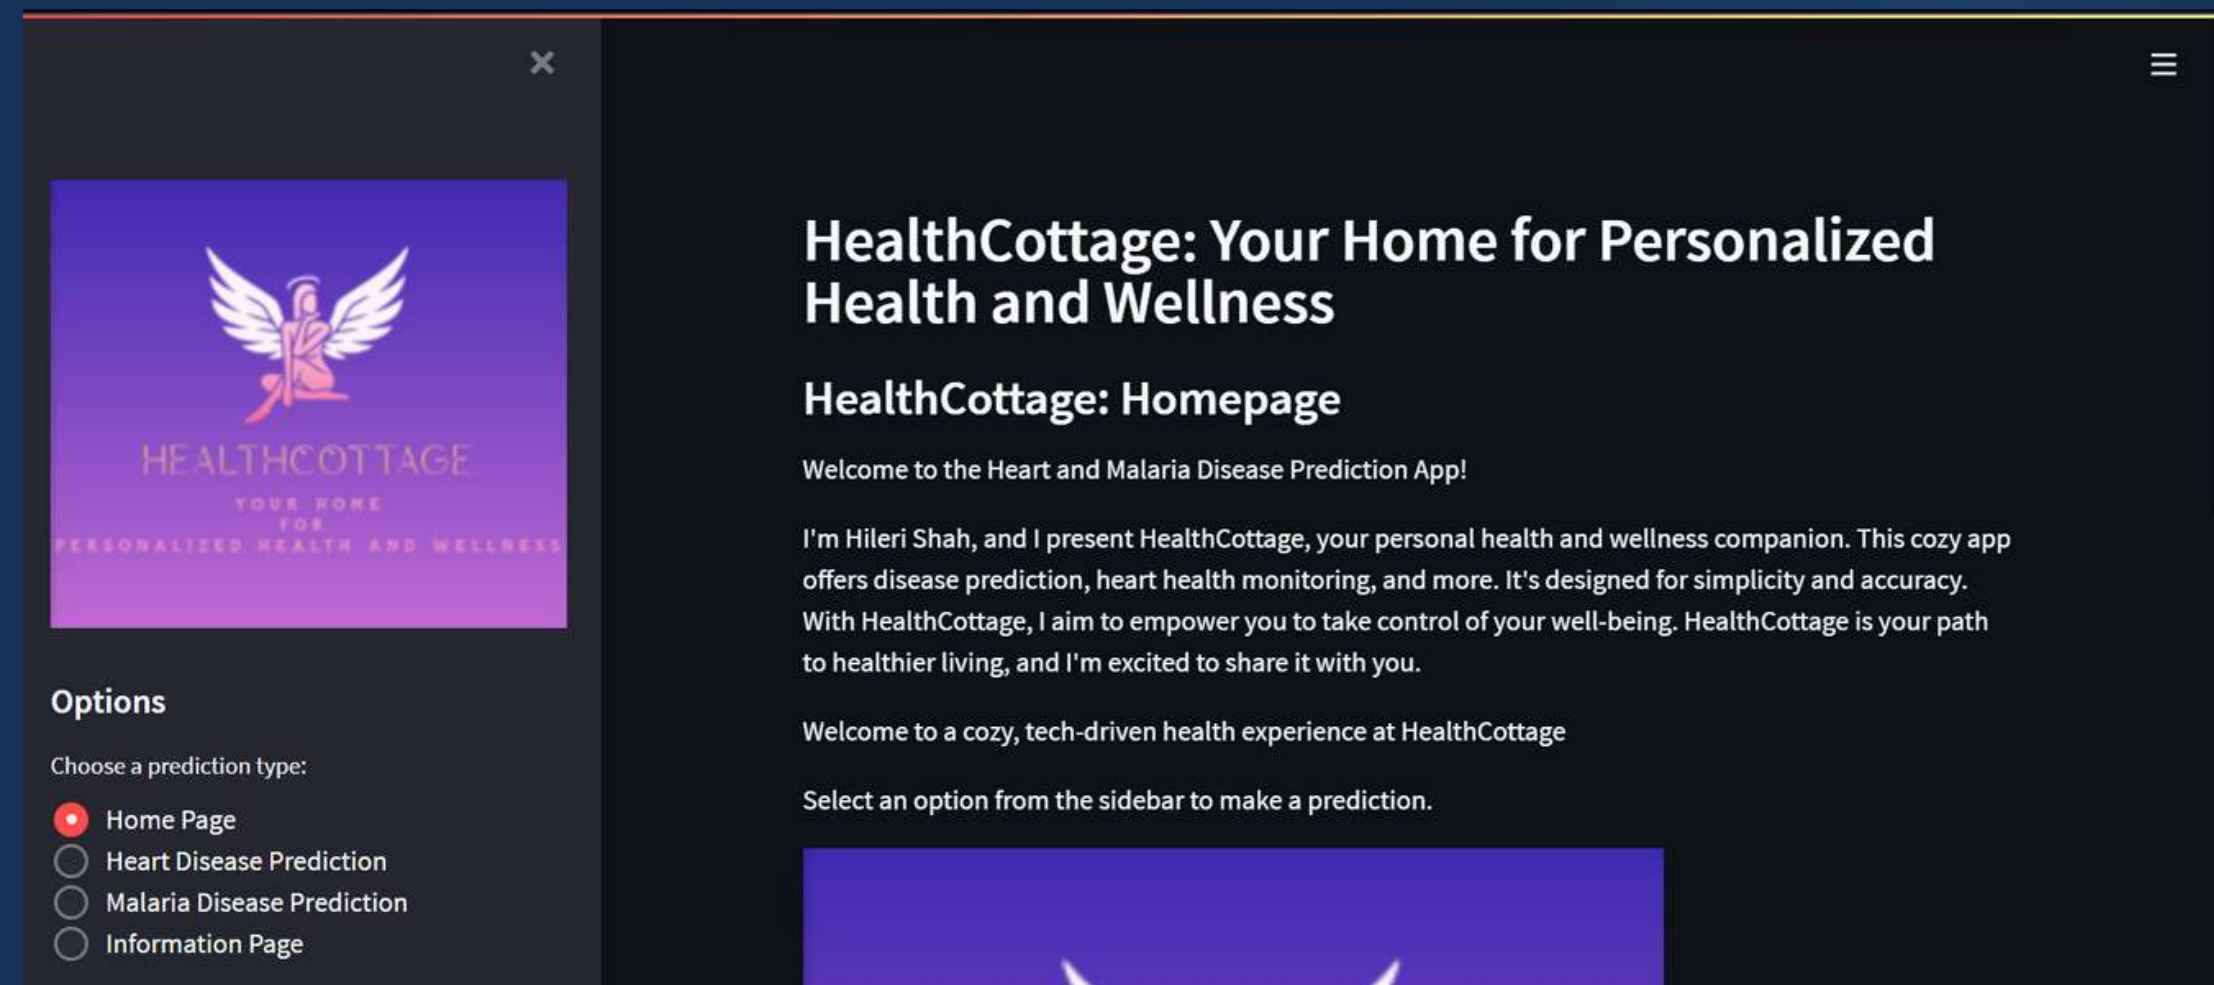

Hello, I'm Hileri Shah, a 14-year-old currently in Class 10. I have a deep passion for coding and enjoy exploring the world of programming and am excited about the endless possibilities it offers.

About HealthCottage

Introducing HealthCottage: Your Home for Personalized Health and Wellness.

HealthCottage is more than just a health app; it's your trusted companion on your journey to well-being. Designed with your comfort in mind, HealthCottage offers a cozy and user-friendly interface that makes managing your health a breeze. Whether you're looking to predict diseases like Malaria, monitor heart health, or simply embrace a healthier lifestyle, HealthCottage has you covered.

**Welcome to HealthCottage,
where your health meets cozy simplicity**

How do I use the App?

Heart Disease Prediction

Predicting your heart disease status is easy with HealthCottage. Just follow these simple steps:

1. Enter the parameters that best describe you.
2. Press the "Predict" button and wait for the result.

Precaution: After filling one parameter, kindly wait for the model to process your answer before entering the next one.

Your health is our priority!

Malaria Disease Prediction

Options
